Hairy Growler

A selection of Elder Futhark runes handcrafted and recycled from silver two shilling coins.

Rune shapes and forms are perfect for carving into silver and stone, and are an intriguing part of Celtic and therefore English story. The Runes look striking as singular pieces, but can also bound together as a collection depending on mood and purpose.

The reverse of each rune charm clearly demonstrates the ethical origins of the raw materials used to create the rune. This compounds the power, will and intent of the charm, making the purpose clearer and more effectual.

They look well on both braided cotton neck cords and the special Hare-y-Gr-Owl-er silver chains.

A SELECTION OF OGHAM TREE RUNES

"The Ogham Trees are sources of wisdom, inspiration and medicine for an untold number of centuries. Each of the native trees have their own particular and personal powers which may be useful in improving magical rituals. Each tree has its own moon cycle span of twenty-eight days and an Ogham letter symbol below to match your birth month."
